

Q-15. Write an SQL query to fetch intersecting records of two tables.

```
SELECT * FROM table1
```

```
INTERSECT
```

```
SELECT * FROM table2;
```

Q-16. Write an SQL query to show records from one table that another table does not have.

```
SELECT *
```

```
FROM table1
```

```
WHERE NOT EXISTS (
```

```
    SELECT 1
```

```
    FROM table2
```

```
    WHERE table1.common_column = table2.common_column
```

```
);
```
